OBJECTIVE

To secure a challenging position as an engineer, where I can leverage my technical skills, passion for innovation, and enthusiasm for learning to contribute to the growth and success of an organization. Seeking a position that allows me to apply my strong communication, problem-solving, and collaboration skills in an inclusive work.

EDUCATION

B.Tech, Computer Science and Engineering   CGPA-8.24

Kalasalingam Academy of Research and Education -Madurai, TamilNadu

Intermediate   CGPA-9.17

AP Model School and Junior College – Kadapa, Andhra Pradesh

SSC   CGPA-9.20

AP Model School and Junior College -Kadapa, Andhra Pradesh

SKILLS

- Java Programming
- Data Structures
- Python
- SQL
- Machine Learning (Basic)
- Problem Solving
- Strong Communication
- Leadership

PROJECTS

- Movie Recommendation System using Python and machine learning

    Developed a movie recommendation system using Python and machine learning techniques, leveraging collaborative filtering and content-based filtering algorithms for personalized movie suggestions.

- IOT- Based Patient Health Monitoring System

    Developed an IoT-based Patient Health Monitoring System with sensor technology and wireless communication, featuring a user-friendly interface and advanced analytics for remote monitoring and timely interventions.

- AI Chatbot Using Python and NLP (Natural Language Processing)

    Built an AI Chatbot using Python and Natural Language Processing (NLP) techniques, enabling intelligent conversation and response generation.

CERTIFICATIONS

- Java Programming by Great Learning
- Intermediate Data Structures with Java by Great Learning
- Python Fundamentals by Infosys Springboard
- AI For India 2.0 by Guvi through Skill India Digital

INTERNSHIP

- Eduskills Process Minning Virtual Internship from Celonis Academy

    Completed Eduskills Process Mining Virtual Internship in Jul-Sep 2022 at Celonis Academy, gaining hands-on experience in process mining methodologies and developing skills in analyzing business processes.
